

Whether you are in technology, procurement or finance, keeping your **IT environment up and running** efficiently and cost effectively is both critical and challenging.

Curvature **extends the life of your IT assets**, consolidates multiple contracts into one, offers flexible service levels and terms and provides significant cost-savings on multi-vendor platforms and services.

Our global presence, **which includes 57 “brick and mortar” service centers in North America**, makes us the largest independent provider of post-warranty hardware maintenance. Curvature is the only provider that can reliably scale alongside any business, while consolidating their vendors and providing substantial OpEx and CapEx savings year over year.

## Extending Asset Lifecycle – Optimizing IT Infrastructure

### Why Curvature?

- **Global Reach**
- **24/7 Expert engineering** team providing development, training and technical support
- **Wholly-owned inventory** (non-shared logistics) located around the globe in 100+ service centers
- **Continual hands-on technical training** conducted in our labs on live gear
- **Superior quality** through comprehensive testing
- **Fast service and same-day shipping** on most products

### Benefits

- Maximize investment by extending product life
- Vendor consolidation
- Flexible service levels and contract terms
- Reduce support costs by at least 40%
- Multi-vendor, -platform, -geography -generation and -service
